

## Twilio in n8n

# Last amended: 29<sup>th</sup> August, 2025

# Ref: <https://n8n.io/workflows/401-send-an-smswhatsapp-message-with-twilio/>

# My folder: Onedrive->flowise->n8n->2.twilio

### Send SMS

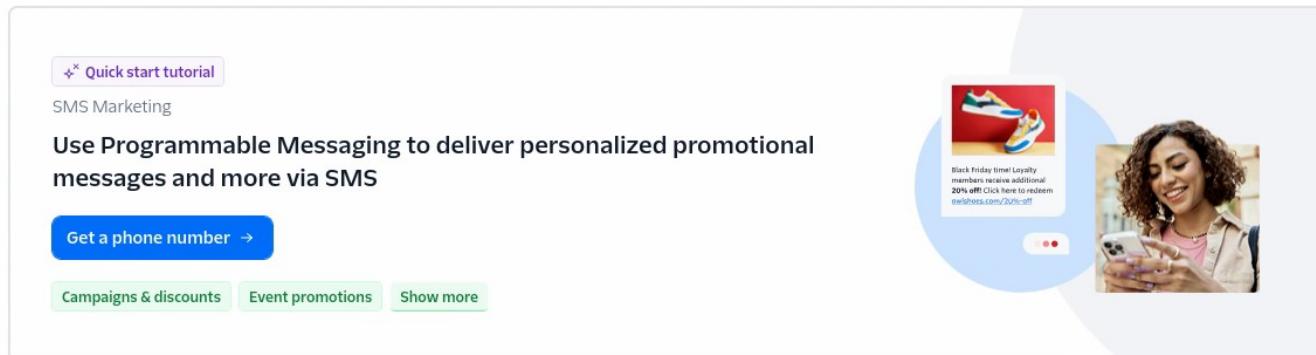

1. Open twilio home page:  
<https://www.twilio.com/en-us>
2. Click on '*Start for free*' button at the top-right
3. At the bottom of this page, click on *Sign up with Google*
4. After signing in, you have to enter your mobile number so as to verify the destination SMS address. Click the button *Send code via SMS*
5. You will receive a verification code on your mobile by SMS. Enter the code and click Verify button.
6. You will get a recovery code. Copy and Save it somewhere (maybe your email):  
XYTMNTY5PGJLS7FA52S5MY3YHP
7. Click *Continue* button
8. Fill up some survey information.  
Which channel are you interested in? ==> **Select SMS**
9. You are taken to following screen. This screen has two parts: Top and Bottom.

In the top part, you are invited to get a free telephone number from where you will get an SMS. Note down this number.

Ahoy, FORE

## Get started with Twilio

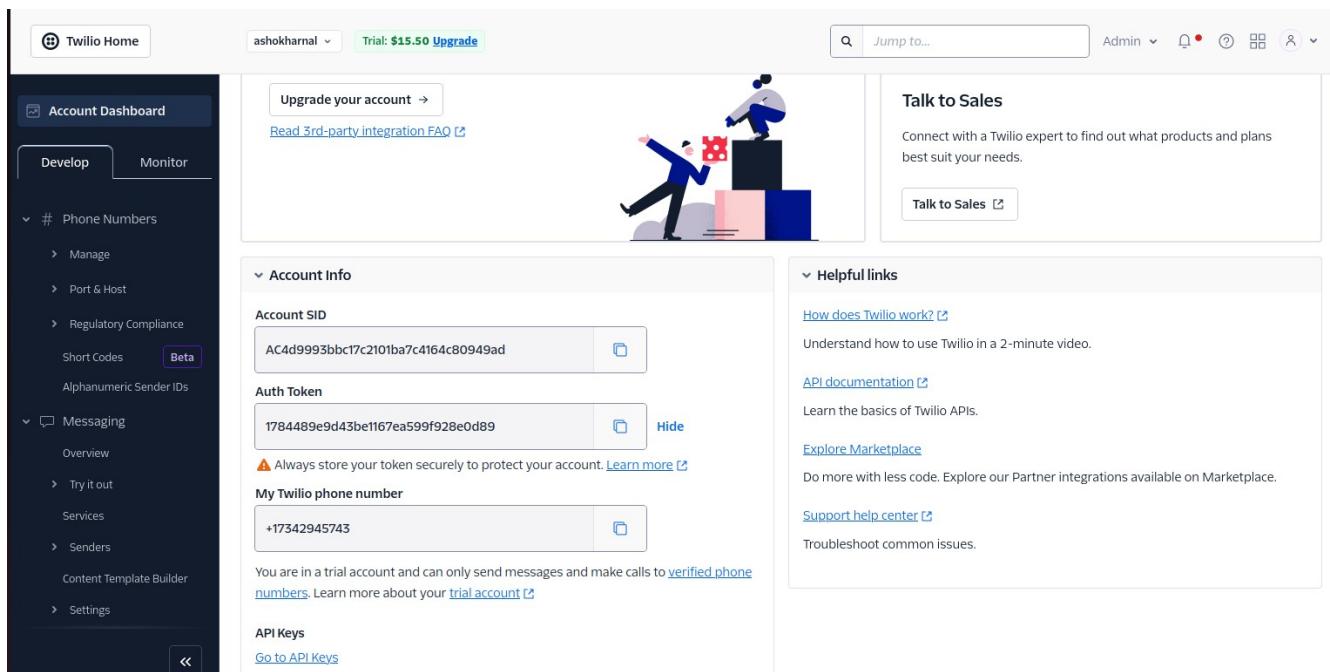

For You   Verifications   Notifications   Marketing   Customer Care   Custom

The screenshot shows the Twilio Get Started page. At the top left is a 'Quick start tutorial' button. Below it is a section titled 'SMS Marketing' with the sub-instruction 'Use Programmable Messaging to deliver personalized promotional messages and more via SMS'. A prominent blue button labeled 'Get a phone number →' is centered. Below the button are three green buttons: 'Campaigns & discounts', 'Event promotions', and 'Show more'. To the right is a circular promotional graphic featuring a woman smiling while looking at her phone, with a small image of a sneaker and text about Black Friday deals.

Figure 1: Click Get Phone Number

In the bottom part of the page you get Account information and Auth token. Save this information also.

The screenshot shows the Twilio Account Dashboard. On the left sidebar, under the 'Develop' tab, are sections for 'Phone Numbers' (Manage, Port & Host, Regulatory Compliance), 'Short Codes' (Beta), 'Alphanumeric Sender IDs', 'Messaging' (Overview, Try it out, Services, Senders, Content Template Builder, Settings), and a 'Helpful links' section with links to 'How does Twilio work?', 'API documentation', 'Explore Marketplace', 'Support help center', and 'Troubleshoot common issues'. The main content area includes a 'Upgrade your account' button, a 'Talk to Sales' button, and a central illustration of two people working on a stack of blocks. Below these are sections for 'Account Info' (Account SID: AC4d9993bbc17c2101ba7c4164c80949ad, Auth Token: 1784489e9d43be1167ea599f928e0d89, warning: Always store your token securely to protect your account), 'My Twilio phone number' (+17342945743), and a note about being in a trial account. There is also a 'Go to API Keys' link.

Figure 2: Copy each and every information from this page into your email

## Try it out

+12179163066 has been added to your Messaging Service. Send your first message!

Need a number from India 🇮🇳 ? X

We've assigned you a trial US 10DLC - perfect for prototyping and early testing. Once you upgrade, local numbers may be available.

Response

Figure 3: You can get an SMS from the telephone number allocated to you.

**Account SID number:**

AC4d9993bbc17c2101ba7c4164c80949ad

**Auth Token**

1784489e9d43be1167ea599f928e0d89

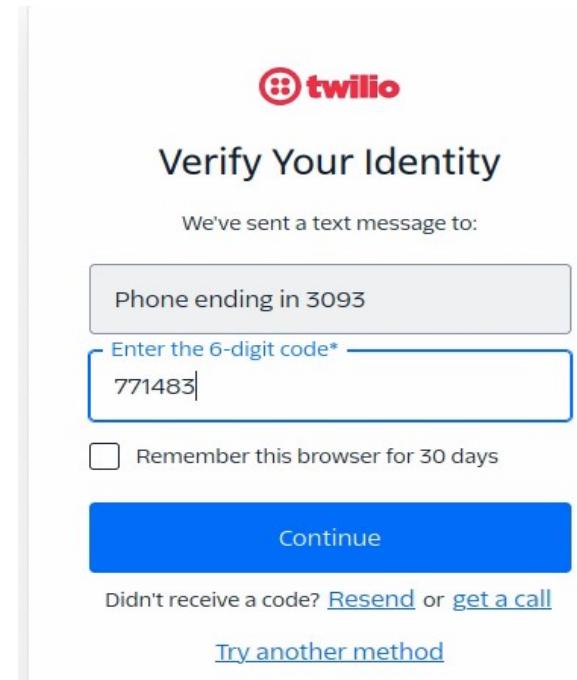

**My Twilio phone number**

+17342945743

**My Phone Number:**

+918750893093

Should you login again, you will also be lead to your accounts page where you can get full information.

The image shows a screenshot of a Twilio verification page. At the top center is the Twilio logo. Below it, the heading "Verify Your Identity" is displayed. A message "We've sent a text message to:" is followed by a text input field containing the phone number "Phone ending in 3093". Below this is another input field labeled "Enter the 6-digit code\*" containing the code "771483". To the left of this field is a checkbox labeled "Remember this browser for 30 days". A large blue "Continue" button is centered at the bottom of the form. Below the "Continue" button, there is a link "Didn't receive a code? [Resend](#) or [get a call](#)". At the very bottom, there is a link "[Try another method](#)".

## Configuring n8n to use Twilio

Refer [here](#) to configure Twilio in n8n

## Using Auth Token

To configure this credential, you'll need a [Twilio](#) account and:

- Your Twilio **Account SID**
- Your Twilio **Auth Token**

To set up the credential:

1. In n8n, select **Auth Token** as the **Auth Type**.
2. In Twilio, go to **Console Dashboard > Account Info**.
3. Copy your **Account SID** and enter this in your n8n credential. This acts as a username.
4. Cop your **Auth Token** and enter this in your n8n credential. This acts as a password.

Refer to [Auth Tokens and How to Change Them](#) for more information.

Configuration of Twilio node.

Test working  
See the right hand side.

The screenshot shows a workflow editor interface. On the left, there is an "INPUT" section with a note: "No fields - item(s) exist, but they're empty". In the center, a "Twilio" node is configured with the following parameters:

- Credential to connect with: Twilio account
- Resource: SMS
- Operation: Send
- From: +17342945743
- To: +918750893093
- To Whatsapp: (disabled)
- Message: Test message
- Options: No properties

On the right, the "OUTPUT" section displays a table with one item:

account_sid	api_version	body	date_created	date_sent	date_updated
AC4d9993bbc17c2101ba7c4164c80949ad	2010-04-01	Sent from your Twilio trial account - Test message	Sat, 01 Mar 2025 08:28:58 +0000	[null]	Sat, 01 Mar 2025 08:28:58 +0000

A success message at the bottom right says "Node executed successfully".
